

ทำไมไม่ท้นครับ

```

class Student {
  constructor(name = 'Unknow', nameth = 'Unknow' , id = 'Unknow'){
    this.id = id;
    this.name = name;
    this.nameth = nameth;
    this.semesters = {
    };
    this.allSemester = {
      AllUnitRegistered : 0,
      AllUnitCalculated : 0,
      GradeScore : 0,
      Gpax : 0,
      Status : ''
    };
  }
  calculateGPAX() {
    let gpax = GradeScore/AllUnitCalculated
    this.allSemester.Gpax = gpax;
    return gpax;
  }
  checkStatus() {
    return status;
  }
  Addgrade(semester,grade){
    semesters[semester].grade = grade
  }
}

class Semester {
  constructor(no , subj){
    this.no = no ;
    this.subj = {}
  }
}

class Subject {
  constructor(code = 'Unknown' , name = 'Unknown' , unit , grade = ''){
    this.code = code;
    this.name = name;
    this.unit = unit;
    this.grade = grade;
  }
}

const GradeScore = {
  "A" : 4, "B+" : 3.5, "B" : 3 , "C+" : 2.5 , "C" : 2, "D+" : 1.5, "D" : 1, "F" : 0, "Fa" : 0, "Fe" : 0, "W" : 0,

```

```
}

function addSubject(student , semester , subject){
    student.semesters[semester] = subject;
}
